

## **AquaBounty Technologies, Inc. Results for the year ended December 31, 2018**

March 7, 2019

MAYNARD, Mass., March 07, 2019 (GLOBE NEWSWIRE) -- AquaBounty Technologies, Inc. (NASDAQ: AQB) ("AquaBounty" or the "Company"), a biotechnology company focused on enhancing productivity in the aquaculture market and a majority-owned subsidiary of Intrexon Corporation (NASDAQ: XON), announces the Company's financial results for the year ended December 31, 2018.

### **Results Highlights:**

#### **Operational**

- Received approval from the U.S. Food and Drug Administration ("FDA") to raise AquAdvantage Salmon at the Company's Indiana farm;
- completed a second harvest of AquAdvantage Salmon at our Panama farm and sold five tons as fillets in Canada;
- commenced production operations at the Indiana farm with traditional Atlantic salmon eggs while waiting for approval from the FDA to import AquAdvantage Salmon eggs; and
- hired Sylvia Wulf as the Company's new Chief Executive Officer, President, and Director effective January 1, 2019.

#### **Financial**

- Completed a public offering of common shares and warrants, raising net funds of \$10.6 million;
- completed an offering of common shares through the conversion of outstanding warrants, raising net funds of \$4.3 million;
- the Company's Canadian subsidiary received a construction loan in the amount of CA\$2.0 million ( US\$1.6 million) from the Department of Economic Development of the Province of Prince Edward Island; and
- net loss for the year increased to \$10.4 million (2017: \$9.3 million) with the commencement of production operations in Indiana.

Sylvia Wulf, Chief Executive Officer of AquaBounty, stated: "This was a successful year in terms of our operational achievements as we continue to take steps forward that will ultimately lead to harvesting our fish on a regular schedule from our two production farms and expanding our global footprint."

#### **U.S. Production**

Having completed the first phase of upgrades to the Indiana farm, it was stocked with conventional Atlantic salmon eggs from the Company's hatchery in Canada. The fish are growing well and are expected to be ready for harvest in the summer of 2020. Regardless of regulatory approval, commercialization of AquAdvantage Salmon in the U.S. is presently blocked by an Import Alert requiring the issuance of labelling guidance by the FDA. The FDA recently confirmed in a statement to Congress that final labelling guidance for AquAdvantage Salmon is in process. While the Company understands, based on this statement, that guidance could be issued within the next few weeks, regulatory decisions are never certain. As a result of the FDA's statements to Congress, the Company is taking steps to prepare for the import of AquAdvantage Salmon eggs.

#### **Canada Production**

The Company expects to have AquAdvantage Salmon growing in its new Rollo Bay farm facility on Prince Edward Island this quarter with harvest projected to be in the summer of 2020, which will demonstrate the superior growth rate, feed efficiency, and economic benefits of our fish.

#### **International Development**

AquaBounty is also establishing operations outside North America with projects currently in process in Brazil, Argentina, Israel, and China. We believe that our experience with growing salmon in recirculating aquaculture systems, combined with our genetically superior fish, provides an unparalleled opportunity to bring our nutritious, safe, and more sustainably produced salmon to consumers.

#### **Forward-Looking Statements:**

This press release contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, each as amended. All statements other than statements of historical fact contained in this press release are forward-looking statements, including statements regarding the potential for and timing of: (1) issuance of labelling guidance and lifting of the Import Alert, (2) FDA approval to import AquAdvantage Salmon eggs into the United States, (3) raising AquAdvantage Salmon at our farm in Indiana, (4) stocking our Rollo Bay facility, (5) harvesting our fish from our production farms, and (6) sale of our fish to consumers; the potential for construction at our facilities on Prince Edward Island; projections for harvest; demonstration of the benefits of AquAdvantage Salmon; and expansion of the Company's

global footprint. Forward-looking statements may be identified with words such as “will,” “may,” “expect,” “plan,” “anticipate,” “upcoming,” “believe,” “estimate,” or similar terminology, and the negative of these terms. Forward-looking statements are not promises or guarantees of future performance and are subject to a variety of risks and uncertainties, many of which are beyond our control, which could cause actual results to differ materially from those contemplated in these forward-looking statements. Forward-looking statements speak only as of the date hereof, and, except as required by law, we undertake no obligation to update or revise these forward-looking statements. For additional information regarding these and other risks faced by us, please refer to our public filings with the Securities and Exchange Commission (“SEC”), available on the Investors section of our website at [www.aquabounty.com](http://www.aquabounty.com) and on the SEC’s website at [www.sec.gov](http://www.sec.gov).
